VISION

Draco will integrate capabilities with our client's needs to become a new breed of 3pl. Through established calculated processes, physical distribution and logistics consulting we exceed all client expectations. We strive to develop alliances throughout the us to become turn-key solution and increase our clients supply chain capabilities.

COMPANY OVERVIEW

Draco is a third party logistics company located in Park 100 in Indianapolis, Indiana. The company became incorporated in 2010. Since its inception in 2007, Draco has quickly expanded into new horizons, breaking the mold of traditional fulfillment companies and becoming the new breed of value added operations.

Draco's relentless pursuit of excellence in packaging and labeling services has added several Fortune 500 companies to its client portfolio.

Draco redefines fulfillment by providing service and capabilities in our facility or in your facility during seasonal cycles. We are continuously improving our services to achieve maximum client satisfaction. Our goal is to build lasting relationships and mold our business to meet changes in our client demands.

PROGRAM MANAGEMENT

Process, Physical Distribution and Logistics Consulting

Draco's newest model allows for maximum flexibility for their clients. Our in-house fulfillment program allows us to manage internal fulfillment programs for our clients and reduce their overall cost and turnaround time.

With Draco in house, our clients can manage the peaks and valleys of their business through Draco's fixed cost model. This gives our clients flexibility without adding additional labor.

Client Benefits:

- Reduction of direct labor costs
- Reduction of full time staff
- Reduction in benefits, workman's comp and associated cost with direct employment
- Reductions in logistics / transportation costs
- Increased turnaround time
- Fixed pricing

PROGRAM MANAGEMENT

Process, Physical Distribution and Logistics Consulting

How the process works:

- Client will call Draco for an internal RFQ
- Draco studies the product/program and submits a quote
- Draco will project the number of employees needed to meet the clients deadline
- Draco will go through the screening, orientating and hiring of the temp labor needed
- Draco's on site manager will coordinate with the client on job specifics (work space, materials, quantities, etc...)
- Draco will check in all employees and assign badges
- Draco performs the job per clients specifications and submits daily production reports

What we do:

- Interviewing, screening and hiring of temp labor
- Orientation to clients process and procedures for employees
- Drug screening and background checks
- I-9 verification
- Employee check in and out of clients facility
- Daily production reporting
- Fixed piece price for clients

SYSTEMS

Draco manages its client's products by utilizing a full access supply chain management software. It is designed to give our clients full visibility of their products in real time. This system empowers companies to utilize Draco's systems per their specific needs. All of the products shipped from Draco are branded with the client's information and logos. Draco is 100% invisible to the end user.

System features:

- Worldwide inventory and transaction visibility
- In-depth reporting capabilities
- Location controlled
- Remote access and control
- Direct order entry by client
- FIFO / LIFO
- Lot and batch control
- Automatic email notifications
- ASN / EDI ready
- Direct barcode scanning
- UCC-128 retail compliant labeling
- All standard labeling formats

CLIENT PORTFOLIO

Draco's relentless pursuit of excellence in packaging and labeling services has added several Fortune 500 companies to its client portfolio.
